# HOOFLAND'S GERMAN BITTERS

## HOOFLAND'S GERMAN TONIC

Was compounded for those not melined to extreme hitlers, and is intended for use in cases when some alcoholic stimulant is required income nection with the Tonic properties of the Bitters. Each bottle of the Tonic contains one bottle of the Tonic contains one bottle of the Bitters, combined with pure SANTA CRUZ. RUM, and flavored in such a manner that the extreme bitterness of the Bitters is oversome, forming a preparation highly agreeable and pleasant to the paliale, and containing the medicinal virtues of the Bitters. The price of the Tonic is \$1.50 per beitle, when many persons think too high. They must take into consideration that the stemolaritueed is guaranteed to be of pure quality. A poor article could be for mished at a cheaper price; but is it not better to pay a little more and have a good article. A medicinal preparation should contain none but the best ingrederate; and they who expect to ctain a cheap compound, and be benefitted by it, will most certainly be cheated.

CHIEF JUSTICE CHASE. AN INTERVIEW WITH THE VEN-ERABLE STATESMAN-HIS VIEWS ON THE "NEW

DEPARTURE." IMPORTANCE AND INFLU-ENCE-MR. CHASE SUP-PORTS IT.

MISREPRESENTATIONS OF THE SOUTH AND SOUTHERN LEADERS.

The Cincinnati correspondent of the New York Herald, under date of June 24, writes as follows: During his recent visit here Chief Justice Chase kept himself very retired. After staying a few days at the hotel he accepted the hospitalities of a rich, retired merchant a few miles from the city. Here he remained in comparative seclusion, seeing only a few old personal friends, and consulting with Wash. McLean, and some of the leaders of the "new departure" movement.

Your correspondent, having known the chief justice in other and more prosperous A Bitters without Alcohol or Spirits of any kind.

Is different from all others. It is composed of the pure Joices, or Vital Principle at Roots, Berris and Barks, for, as medicinally termed, Extracts, the worthless or meri portions of the increase of this Bitters there is contained as much medicinal virtue as will be found in several galeons of ordinary mixtures. The roots, etc., used in this litters are grown in Germany, there vital principles extracted in that country by a scientific Chemist, and forwarded to toe manufactory in this city, where they are compounded and bottled. Containing no spirituous ingredients, this Bitters is free from the objections urged against all others. No desire for stimulants can be induced from their use; they cannot make drunks and senton under any circumstances have any out a beneficial effect.

HOOFLAND'S GERMAN MANUAL. days, was favored with an interview. It

"Pretty good, " he replied, with an effort at cheerfulness; that is, better than it has been." After a few second's hesi-tation he said. "I am so much in the

reverie. After staring at vacuity for a few minutes, he suddenly recollected him-self and inquired what the news was. "The absorbing news here," I replied, "seems to be the sudden and tragic death

of Vallandigham." "Yes, that was very sad indeed. Just at this time, I think, it is unfortunate. Vallandigham was a man of great ability and of undoubted courage. Even when I had occasion to differ with him politically (which I am free to say I do not now,) I

always admired his courage. There are

few of our public men who possess this quality in a great degree.

"Do you think Vallandigham's death will have any serious effect upon the "new departure" movement, of which he was

the author?

"No, sir I do not. That is sure to go on until it covers the whole country. I don't remember any political movement that has made so deep an impression upon parties and upon the country as the one which may be said to have been imaugurated by Mr. Vallandigham. Had he lived it would naturally have given him great influence not only with the democracy but with the honest, thinking men of all parties; for this movement, I think, commends itself to the best men in the republican party as well as the democratic."

"I have heard some republicans, Mr.

the republicans he wanted would have come over to him. There would have been no occasion for him going to them. Mr. Vallandigham fortunately discovered what many republicans had been looking for—a platform upon which the honest, patriotic men of both parties could come together." After a brief silence the chief justice added thoughtfully, "It is only a wanted everywhere.

It has never failed to do what he claims animents. It has never failed to question of time.

"Then you think some of the republicans will join the "new departure" movement?

"Well, yes, I think they will. It looks to me like the nucleus of a new party. There are a great many people who are dissatisfied with both parties. They are anxious for a different order of things. The war is over and the people want peace. The republican party, or at least some of its leaders, seem bent upon perpetuating the memories of the was and thus keeping alive the feeling of hatred and sectionalism which engenders it. This is destruc-tive of the best interests of both sections. Some of the democrats, on the other hand,

in the south are unwilling to accept the situation.

At first the chief justic made no reply to this statement, but after awhile he said: "Davis has been acting very foolishly of late in making speeches. I rather think he has been misrepresented to some extent by the reporters, but he would have done have pursued the course he did better to at first and have refused to make speeches. Davis, Stephens and Toombs represent but a small class of the southern people. I be-lieve the masses of them accept the results of the war in good faith. You see some of the most influential of the southern newspapers repudiate the utterances of these

"What effect will the 'new departure movement have upon the election of president in 1872?"

"I should think it would have a very great influence upon that election. A great deal, of course, depends upon the candidates and the platforms. If the demcandidates and the platforms. If the democratis to produce the desired effect. Two of them set quickly and powerfully, cleansing the Liver, stomach and Bowels, of all impurities. The principal ingredient is Podenhyllin, or the Alcording Extract of Mandrake, which is by many times more powerfull, acting and searching, than the Mandrake itself. Its peculiar action is upon the Liver, cleaning it speedily from all obstructions, with all the power of Mercury, yet free from all the injurious results attached to the use of that mineral.

For all diseases in which the use of a cathartic is indicated, these pills will give entire satisfaction in every case. They NEVER PAIL.

In cases of Liver Complaint, Dyspepsia, and extreme Costiveness, Dr. Hoofland's German Bitters, or Tonic, plurides up the system. The Estiers, or Tonic, purities the blood, strengthens the nerves, regulates the Liver, and gives strength, energy and vigor.

The secretary of the treasury, I think, deserves quite as much credit for collecting the revenue and paying off the debt as the president. But after all it is the people who pay off the debt. They would do it as readily with any other man in the white house as Gen. Grant. To be sure his friends give him the credit of it but the people deserve the praise.

CONSUMPTION.

ITS CURE AND ITS PREVENTIVE BY DR. J. H. SCHENCK, M. D.

DR. JOSEPH H. SCHENCK'S SIMPLE TREATMENT, and availed themselves of his wonderfully efficaand availed themselves of his wonderfully effica-cious medicines, they would not have fallen.

Dr. Schenck has in his own case proved that wherever sufficient vitality remains, that vital-ity, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presump-tions. To the faith of the invalid is made no representation that is not a thousand times sub-stantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy re-quires no argument. It is self-assuring, self-con-vincing.

vincing.

The Sea-weed Tonic and Mandrake Pills are the first two weapons with which the citade of the malady is ascalled. Two thirds of the cases of consumption originate in dysopers ased a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbific action of the liver. Here then comes the culminating result, and the setting in, with all its distressing symptoms of CONSUMPTION.

CONSUMPTION. The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophilum Peltatum. They possess all the blood-searching, alterative properties of calonel, but, unlike calonel, they

"LEAVE NO STING BEHIND." The work of cure is now beginning. The vitta-ted and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, tike a clock, is wound up. It are uses from its terpid-ity. The stometh nets responsively, and the patient begins to feel that he is getting, at last,

A SUPPLY OF GOOD BLOOD. A SUPPLY OF GOOD BLOOD.

The Sea-weed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylineation is now progressing without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man, Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature can not be cheated. It collects and ripens the impaired and diseased portions of the lungs, in the form of gatherings, it prepares them for expectoration, and lo! in a very short time the malady is vanguished, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm room until they get well; it is aimost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a care can not be effected. Fresh air and riding out, especially in this section of the country, in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased; and yet, because they are in the house they must not sit down funet; they must sak about the room as much and as fast as the strength will bear, to get up a good etreliation of blood. The patients must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own care was in these medest words.

"Many years ago I was in the last stages of consumption; contined to my bed, and at one time my physicians thought that I could not five a week; then, like a drowning man extening at straws. I heard of and changing man extening at straws. I heard of and changing man extening at straws. I heard of and changing man extening at straws. I heard of and changing man extening at straws.
